

CMSC 104 Section 2

Fall 2026

Classwork 3: Modeling & Simulation

In-class Date: Monday 14 September

Due Date: Monday 21 September

Objectives

To continue getting used to writing Python code.

Assignment:

Get the starter code file, called `classwork_3_starter.py`. You may get the file either from Blackboard or GitHub. Follow the instructions in that file.

Reminder

Assignments are your own effort. Do not share your code.

Grading Rubric

Script prints:

- allowance for a given day: 25 points.

- the correct total with tip: 25 points.

 - Tip extra credit: +5 points.

- the Fibonacci value at the n th position in the sequence: 25 points.

- when the user's number is prime correctly: 25 points.

What to Submit

Your saved Python script.
